DETAIL ACTIVITIES DURING -2022-23

CONTEXUAL OVERVIEW:

The organization has achieved a remarkable achievement in the fields of promotion of Indian culture heritage, health, environment and youth / adolescent welfare, Disaster management, Vocational Education and training to un-employment women and youth etc through incessant co-operation of beneficiaries. Besides the organization also has implemented other non-aided programme like women Empowerment & development. Income generation training for un-employment and Dropout Adolescent girls. The organization has made a triumph through various community awareness activities on the basis of street plays workshop and seminar by means of strategic management with Co-operation of governing body members, staff and volunteers. However, the annual activities approved by General Body are chronologically given below:

AIDED PROGRAMME:

A. BAYERS Carbon Rice Farming Programme;

The Carbon Rice farming programme was implemented in three block of jajpur District of Odisha. The block are as- Dasrathapur, Binjharpur&Jajpur. The project was implemented in February-2022 to onwards. This project was sponsored by Bayer's Crop Science PVT Ltd in Partnership with Dinabandhu Trust, Kolkota and subsequently PARIBARTAN partner with Dinabandhu Trust. On Paribartan downline 03 NGO are now operate at—Jajpur, jagasinghpur&Puri:

On Rabi Crops implemented stage the farmers (Land Owner) was provide data (Aadhar Card, Land acre village Name etc. Finally all the farmers make an Agreement with BAYERs Company with agreement to obey all term & condition .Farmers meeting was organized three blocks also.

On Kharif crops, the farmers motivated on AWD (Alternate wetting and Drying) installed on their field. On an Acre two pipes are minimum installed. On this methodology, how many water are required for this field? The holes on this pipe are on distance 2 ft. So, Farmers are saving in electricity & Diesel on save power consumption. In this connection, manure also requires less.

Due to reduce Methuen Gas consumption, it will grate impact on climate change. The farmers will get incentive according on their field capacity.

B. Consumer Counseling Center:

Our Organization was operated two consumersCounseling Center at keonjhar&Bhadrak. The two Consumer counseling center are operate at presently at President O/o DCDRC premises. Two counselors are operating the center. When a complain arises to the consumer on trade& Service .Firstly, he lodged a written complain to the counseling center. The counselor verifies all the matter, and then noticed the opposite party to attend on a fixed date. The two partiesselfly elaborate the problem. The counselor will take part on the middle man and judge how the dispute between the two person. The counselors suggest a way to solve the problem and both party will accept this decision or not. If they comprise this proposal, then the complain are closed on mutual settlement. If any dispute will continue, on this situation the counselor forward the matter to the consumer court.

C. Consumer Awareness Programme for the Telecom Subscribers:

Since 2015, Our organization was availed as CAG member on TRAI (Telecom Regulatory Authority of India), Govt of India, New Delhi .The consumer awareness programme are organized by the telecom service provider and TRAI also.

Accordingly, the decision of CUTCEF, New Delhi every CAG member will organize 06 CAP programme on the remote areas on where the service provider &TRAI are not communicate. If more CAP will organize by the concerned organization then the application to the Regional Office. The regional office will recommend the application to the Head office at New Delhi.

On this year, we are organized 11 no's of CAP programme . The District are covered namely-Jajapur, Kendrapara, Bhadrak,Angul, Puri, Kandhamal, Keonjhar, Ganjam, GajapatiandDhenkanal. On this programme local representative of Telecom Company are invited. The participants areSHG, Students and general Public are invited to attend this meeting.

On the beginning of this workshop, the organization secretary represent to welcome the participants and the representative .He will clearly elaborate the TRAI Goal& objective of this programme. The complain mechanism are discussed briefly .The representative are clearly elaborate their future plan, Economic Plan, FIFTH Broadband plan. The Appellate Desk officer contact number and email. On the last session, specific complain of the customer on specific service provider are discussed on the workshop. The representative are noted all the complain and try to best solve the problem.

NON – AIDED PROGRAMME

WOMEN EMPOWERMENT & CHILD DEVELOPMENT:

A. Formation ,Promotion& Nurturing of SHG-- In order to establish integrity and solidarity of poor women having homogeneous economic status, the organization has formed and promoted 20 SHG involving tribal women members of Dangadi Block of Jajpur District . For furtherance of existing skill of the tribal women artisans the skill up gradation training was imparted with the SHG member on trade Bamboo fiber processing and natural grass fiber processing. An expert was invited from reputed agencies to impart such training and raw materials were provided by the organization from its own resource.

B. Workshop on child Right on Education & Health;-

Venue- Usharani Memorial Girls UP School No of participants- Duration—

child are the backbone of a nation. Parents are the care taker of the child in the child hood. On the simple earning a person will care take his family.On the age group 0-6 yrs , the parents are admitted on the primary school for primary education. Every child will be the right on Education & Health. Government will take necessary step to the rural poor child on free education and health check up also. On this workshop, the resource person elaborate, a parent is the right care taker for a child to follow the bright future. Education will maintain on good health atmosphere. So, Education & Health is essential for a child as per the constitution of our country.

C. Entrepreneurship Development Training:-

Venue—Belapokhari(office premises) , Number of Trainees—40 nos.

Generally, the women Artisans of the locality make different Article for supplementing family income. They lack in present knowledge of entrepreneurship. Although they are individually making Golden Grass processing work to produce home based Article these are not marketed due to lack of appropriate enterprise instinct either on individual or collective basis. This training was imparted with the women to

climate changes. Most of the factors are manmade. The interaction between participants and resource. Person held that human activities are responsible for changing climate the degradation of bio-diversities paving the way for frequent change of climate. The unanimous recommendation at last session was that, the much cause of climate change rests upon human beings.

B. Nursery raising through plantation

Location- Acjhalika Baladevjew UP School, Nuagaon- Alakunda

A Nursery was raised at community land for germination of supplying for plantations. All prerequisite activities like land preparation, irrigation, seedling plantation, fencing activities were completed with co-operation of local people. After six month the seedling germinated as sapling bring ready for plantation. Altogether 2000 sapling were procured and distributed among villagers who planted in homestead area, school and college campus, road side and river embankment sides. It was proved as one step for greening the locality.

C. Training on Flori culture & Bee Keeping:

Venue- B. B High School, Pritipur **No of participants--** 65 **Duration—**One day

It is a fact that now flowers of different color are very much appreciated day to day customers and Bee- Keeping both are very much necessary for enhancing income status of farmers. Hence the facilitators elaborately put lectures with demonstration on how to prepare land for flori culture and procure boxes for bee-keeping, how to collect queen bee and how to collect seeds of flowers from concerned agencies.

D. Workshop on Organic Farming

Venue- Dihakula Nodal UP school **Number of participants-**54 **Duration—**One day

The workshop was organized for purpose of making the participants farmers aware of wrong way for using synthetic fertilizers and pesticides. In the name of intensive agriculture the farmers are habituated to use chemical fertilizers and pesticides for more harvesting of crops, but such practice has proved know of no avail. The chemicals enter into deep soil and kill micro organism which make the soil porous. The chemicals enter in to pond, water and kill aquatic animals. There by depleting bio-diversity causing climate change. In order to make the farmers aware of continuing organic farming instead of synthetic farming this work shop was organized. The resource persons have demonstrated the ill effect of chemicals fertilizers in proven manner to which the participants were motivated.

The unanimous recommendation held that such kind chemicals farming for wish yielding should be avoided and instead Organicfarming be followed to maintain agro-biodiversity.

YOUTH & ADOLESCENT WELFARE PROGRAMME
